# UNVEILING THE SHIELD

## What are Insulated Tools?

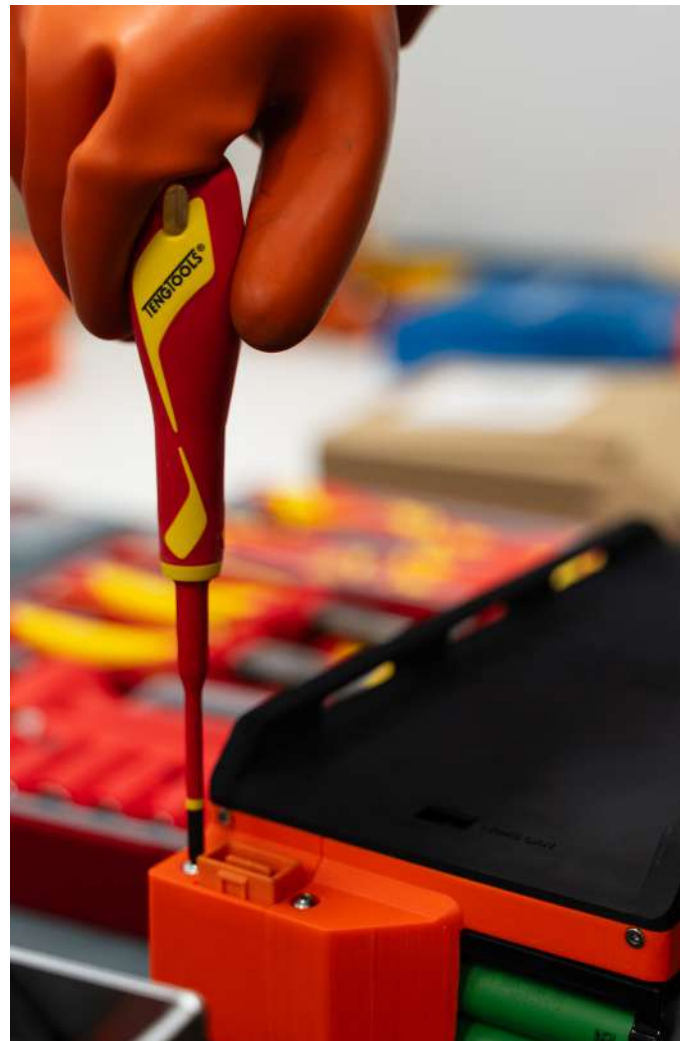

Insulated tools are the only sensible choice for minimising the risk of electrical accidents. These tools are meticulously crafted with a protective layer, made of high-quality, non-conductive materials. This insulating layer acts as a barrier, preventing direct contact between the tool and live electrical components.

## MANUFACTURED TO THE HIGHEST STANDARD

Our tools emphasise precision, safety, and efficiency. In a realm where such attributes are not just desired but essential, industrial professionals and top motor sport teams choose TengTools for their daily operations. These high-performers understand the value of quality equipment and tools that matches their own dedication to excellence.

As part of our commitment to recognizing the demands of professionals, our tools are an indispensable asset for maintaining safety standards and regulations that not only meet but frequently exceed the stringent standards set by industry regulators.

The range of TengTools insulated tools are an integrated part of the Get Organised™ approach and the comprehensive Tool Control System, both aimed at enhancing tool organization and boosting safety standards in the field.

# 1000V INSULATED SCREWDRIVERS

A hole in the handle of insulated tools for use with fall protection equipment prevents accidental dropping and potential injuries.

TT-MV PLUS steel alloy for greater strength and material flexibility

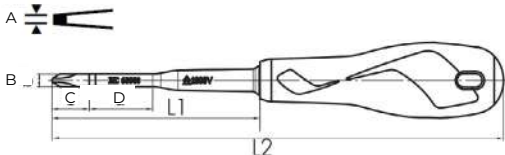

RBD shafts are ultra slim allowing for recessed screws to be accessed easily

Integrated protective insulation with two colours to clearly indicate if there is any damage to the insulation

The bi-material handle is designed for increased comfort and smooth action preventing blisters after continuous use. It gives better support and increased power transfer.

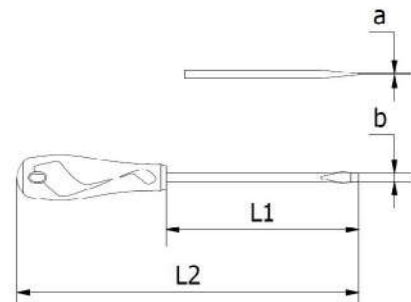

Size and tip marked at the bottom of each handle for easy identification

## FLAT SLIM INSULATED SCREWDRIVER

- Reduced blade diameter giving an ultra slim blade for easier access
- Approved for live working up to 1,000 volts
- Integrated protective insulation with two colours to clearly indicate if there is any damage to the insulation
- For use with slotted screws
- TT-MV PLUS steel alloy for greater strength and material flexibility
- Ergonomically designed bi-material handle for easy use with higher torque
- Designed and manufactured to DIN 2380 and IEC 60900

ITEM ID:	a mm	b mm	c mm	d mm	Shaft	L1 mm	L2 mm	Weight g	HDL

**Bi-Material Handles:**

Crafted with precision, TengTools ergonomically designed bi-material handles masterfully melds rigidity with soft cushioning for unparalleled comfort in hand. Experience less fatigue and work longer, as the handle's superior grip and leverage ensure optimal force application without strain. This not only boosts power transfer but also elevates your productivity. In essence, it's a meticulously crafted fusion of ergonomics and engineering promising an enjoyable experience even during prolonged use.

**LARGE INSULATED HANDLE FOR INTERCHANGEABLE BLADES**

- Approved for live working up to 1,000 volts
- Integrated protective insulation with two colours to clearly indicate if there is any damage to the insulation
- For use 1000V interchangeable blades
- Ergonomically designed bi-material handle for easy use with higher torque
- Designed and manufactured to IEC 60900

ITEM ID:	Length mm	Height mm	Width mm	Weight g	HDL
MDV700	122	36.7	37	66 g	L

**SMALL INSULATED HANDLE FOR INTERCHANGEABLE BLADES**

- Approved for live working up to 1,000 volts
- Integrated protective insulation with two colours to clearly indicate if there is any damage to the insulation
- For use 1000V interchangeable blades
- Ergonomically designed bi-material handle for easy use with higher torque
- Designed and manufactured to IEC 60900

ITEM ID:	Length mm	Height mm	Width mm	Weight g	HDL

# PRECISION ENGINEERING

## For Industrial Reliability

This torque screwdriver handle is not just another tool; it is a commitment to precision and reliability. It is not only accurate to within +/- 6%, conforming to ISO6789 standards, but it is also individually tested and certified at the time of manufacture. Each torque wrench bears its own unique certification number, facilitating efficient quality control management.

### INSULATED INTERCHANGE-ABLE SCREWDRIVERS BLADES

- Approved for live working up to 1,000 volts
- For use with 1000V handles
- Designed and manufactured to IEC 60900

ITEM ID:	Tip	Shaft	Length mm	Weight g

### INSULATED TORQUE SCREWDRIVER 1-5NM

- Approved for live working up to 1,000 volts
- Torque screwdriver covering 1-5Nm for our VDE interchangeable blades
- Slipper mechanism ensures that no torque is applied beyond the set torque
- Simple to adjust and easy to read window Nm scale
- Push locking facility to ensure the set torque is maintained
- Accurate to +/- 6% and conforms to ISO6789 for assured reliability and accuracy
- Individually tested and certified at the time of manufacture
- Each torque wrench has it's own individual certification number for easier quality control management
- Design and manufactured to IEC 60900

ITEM ID:	Range Nm
1492TVSD	1-5

# 1000V INSULATED PLIERS

The pipe grip feature, combined with a serrated jaw design, is especially useful for gripping rounded or irregularly shaped objects.

The 80° cutting edge angle optimises the pliers' ability to cut wires, cables, or other materials efficiently.

Chrome Molybdenum Alloy Steel construction for durability and strength. This alloy is known for its high tensile strength, toughness, and resistance to wear and corrosion.

The TPR (Thermoplastic Rubber) grip is designed to provide a comfortable and secure grip. TPR is known for its soft and nonslip properties, enhancing grip security even in wet or oily conditions.

## INSULATED SIDE CUTTING PLIER

- Approved for live working up to 1,000 volts
- Chrome molybdenum steel
- 80° cutting edge angle
- Electricians style function
- TPR grip for a more secure and comfortable grip
- Designed and manufactured to DIN5749 and IEC60900

ITEM ID:	Length			Cutting Capacity mm			Weight g
	AF	mm	GRIP	●	◐	◑	
MBV441-6	6"	150	TPR	1.6	2.0	2.5	206

## HEAVY DUTY INSULATED SIDE CUTTING PLIER

- Approved for live working up to 1,000 volts
- Chrome molybdenum steel
- 80° cutting edge angle
- Electricians style function
- TPR grip for a more secure and comfortable grip
- Designed and manufactured to DIN5749 and IEC60900

ITEM ID:	Length			Cutting Capacity mm			Weight g
	AF	mm	GRIP	●	◐	◑	
MBV442-8	8"	200	TPR	2.5	3.0	4.0	305

 Insulated according to IEC 60900, usable up to 1000 V  
VDE tested, also in conformance to GPSC (Equipment and Product Safety Act)

-  Piano Wire
-  Hard Wire
-  Medium Hard Wire

### INSULATED COMBINATION PLIER

- Approved for live working up to 1,000 volts
- Features a pipe grip with serrated jaw for a more secure grip
- Chrome molybdenum alloy steel for durability and strength
- 80° cutting edge angle
- TPR grip for a more secure and comfortable grip
- Designed and manufactured to DIN5746 and IEC60900

ITEM ID:	Length			Cutting Capacity mm			Weight g	List Price
	AF	mm	GRIP	●	◐	◑		
MBV451-7	7"	175	TPR	1.8	2.0	3.8	225	£40.70
MBV451-8	8"	200	TPR	2.0	2.2	4.0	283	£43.60

### INSULATED LONG NOSE PLIER

- Approved for live working up to 1,000 volts
- Long straight jaws for easier access
- Jaws with a serrated grip for increased gripping power
- Chrome molybdenum alloy steel for durability and strength
- 80° cutting edge angle
- TPR grip for a more secure and comfortable grip
- Designed and manufactured to DIN5745 and IEC60900

ITEM ID:	Length			Cutting Capacity mm			Weight g	List Price
	AF	mm	GRIP	●	◐	◑		
MBV461-8	8"	200	TPR	1.5	1.8	2.8	199	£38.20

### INSULATED WIRE STRIPPING PLIER

- 7" 1,000 volt insulated wire stripping pliers
- Approved for live working up to 1,000 volts
- Medium carbon alloy steel construction
- With adjuster screw to suit wire diameters from 0.2 to 4.5mm
- Return spring for easier operation
- TPR grip for a more secure and comfortable grip
- Designed and manufactured to IEC 60900

ITEM ID:	Length			Stripping Capacity mm ●	Weight g	List Price
	AF	mm	GRIP			
MBV499-7	6"	155	TPR	0.2 - 4.5	175	£36.10

### INSULATED LONG NOSE PLIER BENT

- Approved for live working up to 1,000 volts
- Long 45° offset jaws for easier access
- Jaws with a serrated grip for increased gripping power
- Chrome molybdenum alloy steel for durability and strength
- 80° cutting edge angle
- TPR grip for a more secure and comfortable grip
- Design and manufactured to DIN5745 and IEC60900

ITEM ID:	Length			Cutting Capacity mm			Weight g	List Price
	AF	mm	GRIP	●	◐	◑		
MDV463-8	8"	200	TPR	1	1.5	2.5	197	£38.20

Insulated according to IEC 60900, usable up to 1000 V  
VDE tested, also in conformance to GPSC (Equipment and Product Safety Act)

- Piano Wire
- Hard Wire
- Medium Hard Wire

**Certified & Tested:**

All 1000-volt tools from TengTools conform to or exceed all specifications that the relevant authorities have established. Each tool is individually tested before it is marked with a special standard tag and a marking that indicates the year of manufacture.

All TengTools insulated tools are VDE-certified and carries the VDE-logo. The range is also clearly marked with the IEC 60900 standard.

Experience superior grip, comfort, and safety with TPR grips on our pliers. These durable, ergonomic handles provide a non-slip hold, absorb shocks, and offer electrical insulation, making them ideal for various tasks, from construction to electrical work. Trust in our quality for efficient and secure tool use.

**INSULATED CABLE CUTTER**

- Approved for live working up to 1,000 volts
- Ideal for cutting copper and aluminium cable up to 38mm<sup>2</sup>
- One hand function with pitch guard for simple safe operation
- High carbon steel for durability and strength
- TPR grip for a more secure and comfortable grip
- Design and manufactured to IEC60900

ITEM ID:	Length			Cutting Capacity mm	Weight g	List Price
	AF	mm	GRIP			
MBV444-8	8"	200	TPR	38mm <sup>2</sup>	339	£38.20

**INSULATED WATER PUMP PLIER**

- Approved for live working up to 1,000 volts
- Simply position the upper jaw against the work piece and press the button to close the jaw-quick, simple and time saving
- Pipe grip with serrated jaws for increased grip
- Shaped to protect the operators' fingers
- TPR grip for a more secure and comfortable grip
- Design and manufactured to IEC60900

ITEM ID:	Length			Capacity mm	Weight g	List Price
	AF	mm	GRIP			
MBV482-10Q	10"	250	TPR	3-38	406	£38.20

Insulated according to IEC 60900, usable up to 1000 V  
 VDE tested, also in conformance to GPSC (Equipment and Product Safety Act)

- Piano Wire
- Hard Wire
- Medium Hard Wire

# 1000V INSULATED RATCHET

Ergonomically designed handle for increased comfort and smooth action

Twist reverse mechanism for quickly changing between tightening and loosening

72 Teeth ratchet give a working arc of just 5° making it ideal for working in confined spaces

Insulation made in two parts, yellow insulating core and a red outer layer. Any damage to the insulation can be detected quickly with the visibility of the yellow core layer

Insulation properties have been tested in resistance to cold and fire as well as in pressurised environments

ITEM ID:	Drive	Reverse	No. of Teeth	Length mm	Weight g
MV3800	3/8"	Twist	72	200	343

## 3/8" DRIVE INSULATED SOCKETS

- Approved for live working up to 1,000 volts
- Integrated protective insulation with two colours to clearly indicate if there is any damage
- 6 point single hexagon socket for a better grip
- Chrome vanadium
- Ball recess on the female end to grip the ratchet
- Design and manufactured to DIN3120/3124, ISO2725 and IEC 60900

ITEM ID:	Size mm	L mm	D1 mm	D2 mm	Weight g

## 3/8" DRIVE INSULATED EXTENSION BAR

- Approved for live working up to 1,000 volts
- Integrated protective insulation with two colours to clearly indicate if there is any damage
- Ball recess on the female end to grip the ratchet
- Ball socket retainer on the male end to securely grip the socket
- Chrome vanadium
- Design and manufactured to DIN3123B and IEC60900

ITEM ID:	Drive	Length mm	Weight g
MV380020	3/8"	75	77
MV380021	3/8"	150	135

# 1000V INSULATED OPEN-ENDED SPANNERS

The nonslip handle feature is designed to ensure a secure grip and minimise the risk of the spanner slipping from the user's hand during use. This is particularly important in situations where precision and control are vital, as well as when dealing with potentially hazardous conditions.

An open offset of 15° is designed to make using the spanner more ergonomic and convenient. This allows for easier access to fasteners that might be situated in tight or hard-to-reach spaces

Chrome vanadium steel construction for maximum durability, strength, and corrosion resistance.

Integrated protective insulation with two colours to clearly indicate if there is any damage to the insulation

TengTools' fully organised portable tool kits are instrumental in enhancing safety, efficiency, and cost savings in industrial settings. Every tool has its own specific place, minimising the risk of accidents, promoting swift tool retrieval, and streamlining workflow, reducing downtime and increasing productivity. By preventing misplaced tools and ensuring accountability, TengTools helps save on replacement costs and enhances overall tool preservation. Moreover, its systematic approach conveys professionalism, aligns with safety regulations, and fosters a positive work environment.

# MECCA PRO™

## INSULATED SCREWDRIVER & PLIER SET

All tools are approved for live working up to 1,000 volts, ensuring your protection in high-voltage environments. The screwdrivers feature integrated protective insulation with dual colors, making it easy to spot any damage to the insulation. Plus, enjoy a comfortable and secure grip with TPR grips on the pliers and bi-material handles on the screwdrivers. Our hard-wearing MeccaPro™ case is intelligently designed, making it a breeze to identify where each tool belongs, and the secure lock system ensures the lid is always closed correctly.

### 1000V Screwdrivers:

	mm:	2.5 x 75	3 x 100	4 x 100	5.5 x 125	6.5 x 150
	mm:	PH0 x 60	PH1 x 80	PH2 x 100	PH3 x 150	
	mm:	PZ0 x 60	PZ1 x 80	PZ2 x 100	PZ3 x 150	

### 1000V Pliers:

6" side cutters, 8" heavy duty side cutters, 8" combination, 8" long nose, 7" wire strippers
